Untitled

Across

3. makes ribosomes
5. performs all the finishing and packing in the cell
7. the cell's "factory floor"
8. makes protein, holds ribosomes
9. powerhouse of the cell

Down

1. outside the plasma membrane of plant cells
2. storage container for water, food, enzymes, waste, pigment, etc.
4. controls what goes in and out
6. protein builders/ protein synthesizer

10. the brain of the cell

11. contains powerful protein digesting enzymes

7. responsible for energy transformation for plant cells
