Visual Performance with Simultaneous Vision Multifocal Contact Lenses

Across
2. CS tests the sensitivity of detection with both large & small details at ______ contrast levels
5. Distance C.S. & distance VA were measured using ________
6. This multifocal lens design is only available in RGP

Down
1. This lens design offers a gradual change in power from the centre to the periphery
3. The data were analysed using the ________ test
4. The 3 simultaneous vision lens designs are concentric, aspheric and ________
lens materials

7. All subjects included in the study were fitted with high addition _______ multifocal
9. A total of _______ presbyopic patients were involved in the study

5. CS tests provide a better assessment of the px’s _______ vision
7. Lens centration and _______ are critical in predicting the visual performance of the concentric design MF lens
8. Near C.S. was measured using the _______ VCTS system
