

# Mendelian Genetics

## Across

1. cross cross involving one trait
3. same alleles in a gene
6. factors that influence the expression
7. different alleles in a gene
10. an offspring
12. trait in that appears in homozygous
13. worked on pure line of peas
15. organism's genetic make up
16. entire set of organism's genes

## Down

2. trait that appears in heterozygous condition
4. organism's physical appearance
5. only
8. trait
9. pair of genes
11. plant that Mendel used in his study
14. segment of DNA
