

Photosynthesis & Cellular Respiration

Across

- 3. Adenosine triphosphate; the universal energy currency of cells
- 4. Where is photosynthesis carried out?
- 6. where does cellular respiration occur
- 7. the Powerhouse of the cell
- 9. what is the color of Chlorophyll?

Down

- 1. A green pigment found in the chloroplasts of plants, algae, and some bacteria
- 2. where does photosynthesis occur
- 5. glucose
- 8. what do the Mitochondria
