

# Types of kinetic energy

## Across

1. Radiant energy is transmitted by \_\_\_\_\_
5. Unit energy is measured in \_\_\_\_\_
6. A stereo uses electrical energy to produce \_\_\_\_\_
9. A stationary ball has \_\_\_\_\_ energy
10. Amount of types of kinetic energy
14. As objects move \_\_\_\_\_, more energy is stored

## Down

2. caused by vibrations
3. Another word for mechanical energy is \_\_\_\_\_
4. Stored energy
7. Energy of motion
8. Energy cannot be \_\_\_\_\_
11. Radio waves are an example of what type of energy.

- 15. Made up of negatively and positively charged neutrons.
- 16. motion of atoms and molecules
- 17. Energy can be \_\_\_\_\_ from one type to another.
- 20. A moving ball has \_\_\_\_\_ energy
- 21. Sound energy is movement of energy through some substance such as water and \_\_\_\_\_
- 22. Thermal is another word for \_\_\_\_\_

- 12. Electrical energy commonly moves through a \_\_\_\_\_
- 13. stored energy in moving objects
- 16. Amount of main types of energy
- 18. Ability to do work
- 19. Electrical energy is another word for \_\_\_\_\_ energy.
